

New Gear

THE ADVENTURE FLYFISHING CO. GEAR BAG & WET BAG

The AFCo. Gear Bag & Wet Bag is designed not only to be extremely durable and functional, but to safely protect your valuable gear. The exterior is made of heavy-duty waterproof, stain and abrasion resistant, PVC coated 600 Denier Polyester, with the corners and bottom reinforced with high-impact laminates, and all seams, stress points and 2" climbing grade nylon webbing straps reinforced stitched and riveted. Most notably there's half-inch padding built into all the sides top and bottom, and all the gear pockets are stitched to the inside walls of the bag, which together with the lockable waterproof zipper keeps all contents protected on the inside behind the padding, and out of sight and reach of prying eyes and mischievous hands. Additionally, the Gear Bag comes with, (or available separately), a large volume roll-and-fasten waterproof wet bag perfect for the safe transport and storage of your wet wear gear, and even doubles as a puncture resistant changing mat. The Gear Bag & Wet Bag is exceptionally durable, superbly protective, compact enough to pack, stack and store efficiently, yet large enough for all your essential fishing gear, (including 9' four-piece rod tubes). And as with all AFCo. gear, it comes with a 2-year Manufacturer Warranty and a 30-day 100% Customer Satisfaction Guarantee.

DR. SLICK PRISM SCISSORS AND PRISM CLAMPS

Since 1989 Dr. Slick have had the distinction of producing the finest fishing and fly tying tools available. Their surgical grade clamps and scissors are a joy to use. The micro-serrated blades on the scissors grip even the slipperiest materials for a neat, clean cut and won't dull or spring. Designed for fly fishers, the Release Clamps have a half smooth/half X-hatched tip for removing hooks from fish and a serrated blade for cutting mono. There is also a recessed point for clearing blocked hook eyes and a blade screwdriver for minor streamside repair jobs.

The tools now come in Dr Slick's funky new 'Prism' finish. The iridescent, oil-slick like colours add a distinctive splash of character for the fly fisher/tyer who wants to stand out from the crowd. The Prism finish is available on Dr Slick's Scissor Clamps as well as their Arrow, All Purpose and Hair Scissors.

STALKER GUIDE SERIES FLY RODS

When presentation counts, the new Stalker Guide Series fly rod is without peer. Superbly finished using titanium coated single leg guides, triangle taper Silicone Carbide stripping guides, lightweight cutaway reel seat with cork or graphite inserts and double locking O rings, on a deep maroon fast action blank. The new generation 46T graphite eliminates weight, creating the awesome power/rebound action, yet maintains the delicate balance for the ultimate presentation.

Available at Pro-Angler stores or online at www.proangler.com.au. 10 models available. RRP \$699.95.

DEEP BLUE DOGBONE

The new Deep Blue DogBone quick release trolling motor mount is designed with the fisher in mind. No tools are required to remove or replace the trolling motor and there are no clips or snaps to lose. Simply depress the spring loaded stainless steel plate and remove the stainless steel pins. The DogBone remains attached to the deck and is designed to have no sharp corners and distribute directional loads evenly. Constructed of high density marine-grade polyethylene, the Deep Blue DogBone is designed for the marine environment. Available in black or white and fits most Minn Kota and MotorGuide bowmount trolling motors. Available from Springwood Marine.

Call 07-38847250 or visit www.springwoodmarine.com.au. RRP \$149.95-\$169.95.

LAMSOM LITESPEED HARD ALOX

New to the line up for 2007 Waterworks/Lamson have released the Lamson Litespeed model. Now made lighter without sacrificing strength with the 17-4 grade aluminium being machined from every conceivable area on the reel to decrease weight. Utilising their new "HARD ALOX" type 3 anodising and by increasing the thickness and reducing porosity, the Hard Alox coating enhances resistance to abrasion, impact and corrosion. These reels feature the patented maintenance-free, super smooth conical drag system with and impressive 7 lbs of drag torque on Litespeed 1 to 3.5 models and 11 lbs of torque on Litespeed 4 model.

TAIL KNOTT'R

The Duncan Tailknott'r is a patented quality tool that is engineered to produce rapid and simple knots. The Tailknott'r has no moving parts and is lightweight. It is cast in a corrosion resistant metal creating an attractive and functional tool. For the novice and experienced fisher alike, the Tailknott'r produces repeatable, strong knots, quickly; knot after knot. RRP\$25.

Available at all leading fishing outlets.

SAGE & REDINGTON LIFETIME WARRANTY IN AUSTRALIA

This warranty is limited to the original owner and must be purchased from an authorised dealer. The warranty card, receipt from the authorised store and the damaged product must be returned to J.M. Gillies for replacement. If the rod or reel has been purchased from an unauthorised source this warranty does not apply. The warranty is limited to repair and replacement of the rod, blank or reel and does not cover, indirect, consequential, incidental or any other type of damage resulting from the use of the product. This warranty does not cover fire, theft, loss, intentional breakage, modification or customisation of the finished rod, or damage during the assembly of a blank into a finished rod.
